Nashville, TN 37243-0505

RE: Docket No. 00-00544, Generic Docket to establish UNE prices  
for line share per FCC 99-355, and riser cable and terminating  
wire as ordered in TRA docket 98-00123

Dear Mr. Waddell:

United Telephone-Southeast, Inc. ("United") is submitting revised line share cost studies and interim rate proposals with supporting documentation. An original and thirteen copies are enclosed for filing in this case. The revised cost studies and rate proposals result in decreased line share costs and rates.

The revisions to United's previously filed interim rates, which were approved by the Tennessee Regulatory Authority on September 26, 2000, resulted from United's ongoing analysis to ensure line sharing cost recovery elements only include costs incremental to wholesale line sharing. United is not requesting the TRA to reconsider interim rate approval; however, by distribution of these revisions, United is notifying the parties of the rate proposals which United will support as permanent rates in its direct testimony to be prefiled on November 10, 2000 and in the hearing in this docket scheduled for November 27, 2000.

As a result of the United's analysis, some programming costs not incremental to line sharing have been removed. In addition, the revisions include both manual (\$22.54) and electronic (\$3.06) service order fees. These service order fees are not unique to line sharing and are applied to all UNEs.

United considers the cost information to be proprietary and requests that it be treated as such. Please call me or Laura Sykora (919/554-7323) with any questions.

Sincerely,

*James B. Wright / JCB*  
James B. Wright
